

Associated Pediatric Partners, S.C.

Request for Transfer of Medical Records

Associated Pediatric Partners prides itself in being both professional and efficient with requests from patients regarding routine transfer of medical records. According to HIPAA practice policy (reference: <https://www.hhs.gov/hipaa/for-professional/privacy/guidance/access/index.html>), medical records must be requested by the patients themselves, or their legal guardians, via written medical release forms.

This request page, and the Authorization for Release of Patient Health Information below, should be sent directly to our office by the patients. All requests for medical record transfer requests are processed as quickly as possible, and will be completed no later than 30 days after the receipt of the medical records transfer request from the patient. However, if a fee applies, then record requests will be completed no later than 14 days after payment is processed by our billing department.

In addition, medical record transfer fees are required to be paid in full by the patient prior to transferring records. **The fees for medical record transfer are calculated according to the standards set by the State of Illinois Medical Society** – see last page for fee schedule. We will not be sending out partial medical records of the patient's chart prior to fulfilling the transfer request. All patients should be aware of the appropriate time period required to process the medical chart, and plan their ongoing medical care accordingly.

Please choose from options below. Kindly complete, sign and date, and return this form to us together with the completed Authorization for Release of Patient Health Information. **Both signed forms are required to process your request.**

Sign: _____ Date: _____

Patient Name: _____

Patient Doctor's name: _____ (who last saw patient)
